

ONLINE COURSE

Cancer Center

Action for Policy, Systems and Environmental (PSE) Change: A Training

A no-cost online training from the George Washington University (GW) Cancer Center's Online Academy

OVERVIEW

Through a series of self-paced lessons, the training walks participants through:

- An overview of the PSE change process
- The evidence base for PSE change
- A full-length case study detailing the PSE change process
- Stepwise worksheets to plan PSE change
- Real-world examples from comprehensive cancer control programs
- Extensive resources on PSE change

LEARNING OBJECTIVES

Participants will be able to:

- Describe the process of PSE change as an evidence-based approach to improve health
- Explain the importance of sustainability in PSE change interventions to stakeholders
- Evaluate capacity for change, including identifying the resources necessary to meet goals
- Identify whether sufficient awareness and resources exist to support successful PSE change implementation

AUDIENCE

Cancer control and other public health professionals can all benefit from this training. Visit our website to learn more about continuing education credits offered.
