

Together, Equitable, Accessible, Meaningful (TEAM) Training

A no-cost online training from
the George Washington University (GW)
Cancer Center's Online Academy

OVERVIEW

Through a series of self-paced modules, the training walks participants through:

- Individual and systems-level approaches to improve the productivity of patient-provider interactions and advance health equity
- Strategies that health care providers can employ to improve culturally sensitive practices

LEARNING OBJECTIVES

Participants will be able to:

- Identify factors and barriers that lead to health inequities
- Describe how implicit bias and assumptions adversely influence patient-provider communication and care
- Discuss strategies for culturally respectful and affirming interpersonal exchanges with patients

AUDIENCE

Health care providers, cancer control and other public health professionals can all benefit from this training. Visit our website to learn more about continuing education credits offered.

HOW TO ENROLL

Visit the GW Cancer Center's Online Academy at gwccacademy.org to create an account and register for the course.
